

Unleash the power of quality-crafted ELSCO transformers

For reliable, long-lasting performance ... and for your peace of mind.

New • Repairs • Reconditioned • Retrofit • Rentals.

When your transformer stops, your facility stops, production stops. ELSCO – The Electric Service Company – has been keeping customers powered up since 1912. Service is part of our name; it's in everything we do. Here's how we keep you "up" and how you keep your peace of mind:

- The finest copper-wound transformers manufactured right here in the USA
- Efficient, long-lasting, field-proven designs for quiet, lasting performance
- 24/7/365 emergency availability
- Industry-leading, three-year warranty on new dry-types
- Large in-stock selection of dry-type and oil-filled transformers
- Transformer ratings of 500 through 3750 kVA in 2.5, 5 and 15 kV primary voltages
- Expert repair and rewinding of dry-types and oil-filled padmounts between 500 through 3750 kVA
- Doing it right and doing it better since 1912

Transformers are all we do.
Keeping you powered up with confidence is why.
